pH-874 Automatic Calibration pH Meter is a water-repellent pH test pen with excellent water-resistance and easy-to-carry applicability. The waterproof grade is IP55. The large screen displays temperature and pH value at the same time. It has a double-point calibration function. When calibrating, you only need to immerse the sensing electrode in the corresponding standard solution and press CAL (calibration key). The instrument starts to automatically calibrate the value.

Applied in aquarium, aquaculture, soilless culture, swimming pool and hot spring, school laboratory, chemical industry, food or beverage manufacturing, textile printing and dyeing, paper making or pulp bleaching, printing, cooling tower, boiler, cleaning or sewage treatment, etc.
