VELLEMAN

(Brand)

Silicone soldering mat

(Product name)

AS12

(Product identification)

Manufactured / imported by:

VELLEMAN NV.

Legen Heirweg, 33

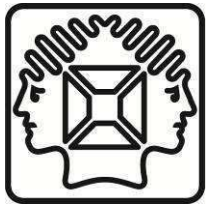

9890 Gavere

Belgium.

When soldering, a clean and safe work environment is more important than one might think. Velleman offers a large choice of handy and high-quality soldering mats for the DIYer, hobbyist and professional. This soldering mat offers a clean and ESD-safe work environment for soldering. The mat is made of pliable, antistatic silicone and features compartments to store small components and other parts. With its heat-resistance up to 500 °C, anti-slip surface and dimensions of 550 x 350 mm, this mat is perfectly suited for all your soldering jobs.

- + High-quality material
- + Heat-resistant: The silicone is heat-resistant up to 500 °C and will protect your desk against burns and other damages.
- + Multi-function.
- + Large dimensions: With its large dimensions (550 x 300 mm), this soldering mat provides bigger space to work freely on your telephone, laptop, computer, sports watch, camera, smart toy or glasses.
- + Easy to clean: Is your soldering mat dirty? Remove soldering and glue residue easily with some soapy water or alcohol.
